

STATEMENT OF PURPOSE

RS23346

This legislation would clarify the sheriff's duties to notify a concealed weapons license holder of pending license expiration. Under the current Idaho Code, Section 18-3302, the responsibility of mailing a notice of pending expiration is not specific. This short change will specifically identify the sheriff as the party responsible to assure that notice of renewal is sent in a timely and proper manner. This legislation will avoid unnecessary costs, delays and inconveniences to the license holder for failing to recognize a pending expiration date.

FISCAL NOTE

There is no fiscal impact to the state budget; however, those budgets under the management of the county sheriff may see a small cost in postage and handling of the notice. These costs are much less than the \$15 renewal fee provided for in the same code section, and payable to the sheriff.
